SIL Open Font License v1.10

This license can also be found at this permalink: <http://www.fontsquirrel.com/license/Vollkorn>

This Font Software is licensed under the SIL Open Font License, Version 1.1.
This license is copied below, and is also available with a FAQ at: <http://scripts.sil.org/OFL>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

Webfont Kit

The license for this font is the SIL OFL license. This license does not allow us to redistribute derivative versions of the font without wholesale name changes inside and out of the font. Until we figure out a reasonable method of delivering these to you and complying with the license, you will have to use the Webfont Generator yourself on these, renaming the fonts appropriately.

If you are the designer of this font, and this was an unintended consequence of using the OFL license, contact us and give us permission to allow webfont conversions. Thanks!
